

Floway

Range :

Models: Classic RHE, Classic, Vertical, Ceiling-mounted

Range of use :

Air flow rates: 500 to 18 000 m³/h

Use :

Floway is a Plug & Play dual-flow air handling unit that draws clean, fresh air indoors with 80% less energy on average than that needed for air conditioning.

Description :

Dual-flow air handling unit equipped as standard with:

- State-of-the-art, high-efficiency heat recovery unit (efficiency of over 80% at nominal flow rate)
- High-performance plug fan driven by an electronically commutated motor
- Plug & Play: factory-wired and programmed standalone unit

Floway

> Advantages

Floway is a standalone dual-flow air handling unit that is both compact and quiet and comes equipped as standard with high-tech components (EC motor, latest-generation heat recovery unit, built-in control, etc.). Once connected, it delivers high-efficiency heating and cooling (high air and thermal efficiency) and ensures the level of indoor air quality you require.

Floway contains a built-in control unit that runs all the components and features an intelligent design that incorporates Plug & Play technology for easy installation, operation and servicing.

Last but not least, Floway comes in three models (Classic RHE and Classic, Vertical and Ceiling-mounted) for optimised installation

Comfort • Air quality • Energy optimisation
